MUHAMMAD IQBAL

Fullstack Developer

Jakarta, Indonesia | +62 822-7307-7430 (WhatsApp) | mhdiqbaltan@gmail.com | iqbaldev.pro

PROFESSIONAL SUMMARY

Fullstack Developer with over five years of experience building responsive, scalable web applications across enterprise and client-facing products. Specialized in the React, Next.js, and TypeScript ecosystem on the frontend, with strong backend experience in .NET and Node.js. Currently developing revenue and billing systems at Tower Bersama Group, with a proven track record delivering internal ERP, HR, and self-service platforms. Focused on clean, reusable code and continuous improvement.

WORK EXPERIENCE

PT. Tower Bersama Group Mar 2026 – Present
Fullstack Developer

- Develop and maintain a Revenue (Accounts Receivable) system that handles billing management logic and automated billing period generation for the company's tower-leasing operations.
- Designed and implemented billing period generation supporting both bulk and single-record processing, using SQL Server stored procedures and table-valued parameters.
- Built and maintained end-to-end features across the stack, with backend services, data models, and database views in .NET, C#, and SQL Server.

PT. Lion Superindo Nov 2023 – Dec 2025
Fullstack Developer

- Developed internal enterprise applications, including a Store Expansion ERP, an HR Performance Management system, and Self-Service Cashier systems.
- Built and maintained scalable web applications using Next.js, .NET, and SQL Server.
- Implemented interactive dashboards, automated email notifications, role-based access control, and multi-stage approval workflows.
- Optimized the React codebase with custom hooks and reusable HTTP service layers to improve maintainability and consistency.
- Delivered reporting features with Excel and PDF export capabilities.

STRT Button Apr 2022 – Jul 2023
Frontend Developer

- Developed and maintained responsive, user-friendly web applications for clients at a Web3 company.
- Collaborated closely with design, frontend, and backend teams to ship cohesive, polished products.
- Built interfaces with React, Next.js, TypeScript, and Tailwind CSS, following industry best practices and coding standards.
- Managed version control with Git to enable smooth collaboration across the development team.

Mejakreatif (Fiverr) Mar 2021 – Feb 2022
Web Developer

- Partnered with the design team to turn concepts into effective, on-brand websites.
- Developed and maintained client websites using React, Express.js (Node.js), and MongoDB.
- Created reusable components to speed up delivery on future projects.
- Ensured all websites were fully responsive and mobile-friendly for a seamless user experience.

SKILLS

Frontend: React.js, Next.js, TypeScript, JavaScript, HTML5, CSS/SCSS, Tailwind CSS
Backend: Node.js (Express.js), .NET Core, C#, REST API
Databases: SQL Server, PostgreSQL, MongoDB
Other: API Integration, Web3 Integration

EDUCATION

Diploma in Computer Engineering 2018 – 2021
Politeknik Negeri Medan
